

# Role Audio

*the best small loudspeakers*

“It's the harmonic completeness and tonal rightness of the instrument, not any lack of bass, which grabs your attention. The sound of the bow strokes against the strings, the sheen of the cello's A string, the beauty of Wispelwey's melodic passages are all vividly portrayed. And that woodwind sound... ooooooh, oboe solos in the orchestral accompaniment have never been sweeter.”

(Marc Yun, Bound for Sound Issue #154)
